

Comprehensive English Learner District Plan

Each LEA in Alabama must develop and implement a Comprehensive EL District Plan, in accordance with ESSA, for serving students who are limited-English proficient and immigrant students, where one or more students are determined to need support. **The LEA is required to have a Comprehensive EL District Plan whether or not the LEA currently has ELs enrolled and regardless of Title III eligibility.**

The Comprehensive EL District Plan should address each aspect of the LEA's program for all ELs, at all grade levels, and in all schools in the school system. The Comprehensive EL District Plan should contain sufficient detail and specificity so that each staff person can understand how the plan is to be implemented and should contain the procedural guidance and forms used to carry out responsibilities under the plan.

To facilitate LEA compliance and the Alabama State Department of Education (SDE) review of the plan, LEAs will develop the Comprehensive EL District Plan using the template included at the end of the checklist. LEAs are encouraged to use the EL Policy and Procedures Manual when developing and revising the plan for a clear understanding of the requirements for serving ELs. The EL Policy and Procedures Manual was developed by the Alabama State Department of Education and is available for downloading at www.alex.state.al.us/ell/

A. INTRODUCTION

- 1) Include the LEA's educational theory and goals for its program of services.

B. IDENTIFICATION AND PLACEMENT PROCEDURES

1) Include the LEA's procedures for implementing the EL Advisory Committee.

2) Include the LEA's methods for identifying and assessing the students to be included in the English language instruction educational program. The following components must be evident in the plan.

- Home Language Survey
- WIDA-ACCESS Placement Test (W-APT)
- EL Committee Placement

3) Include the LEA's method and procedures for exiting students from the English language instruction educational program and for monitoring their progress for a period of at least two years, and at a minimum, follow SDE exiting requirements for ELs. The State established exit criteria a composite score of 4.8 on the ACCESS for ELLs® English language proficiency test.

C. PROGRAMS AND INSTRUCTION

1) Describe the programs and activities that will be developed, implemented, and administered to ensure that ELs acquire academic language as part of the core ESL program.

- Process the district uses to conduct a comprehensive needs assessment
- Rationale for selecting the particular ESL program/s and how they are based on scientific research

2) Describe how language instruction educational programs will ensure that ELs develop English proficiency.

- Practice of continuous improvement and use of data to improve the rate of language acquisition for ELs
- Support the LEA provides each school with respect to continuous improvement practices
- LEA integration of the World-class Instructional Design and Assessment English language proficiency (WIDA ELP) standards with the curriculum
- Teacher integration of the WIDA ELP Standards in lesson plans

3) Include the specific components of the LEA's program of English language acquisition and academic services for ELs.

4) Describe the grading and retention policy and procedures; ELs cannot fail or be retained if language is the barrier.

5) Include the specific staffing and other resources to be provided to limited-English proficient students under the LEA's English language instruction educational program. As with other instructional personnel, ESL staff must be qualified with academic preparation in English-as-a-second-language, as stipulated in the 1991 Office of Civil Rights (OCR) Memorandum.

- Qualified personnel (ESL licensure)
- ESL staff development
- Content teacher and administrator staff development

6) Describe how the LEA will collect and submit data in accordance with SDE requirements.

- How schools are trained to use PowerSchool to code ELs and enter reliable and accurate data

7) Include the LEA's method for evaluating the effectiveness of its program for limited-English proficient students (including those enrolled in non-public schools)

- LEA engagement in the continuous improvement cycle

8) Include LEA's method of identification and referral of ELLs to Special Education. Note that the Individual English Language Plan must describe how the school will communicate with the child and parent in their native language.

D. ASSESSMENT & ACCOUNTABILITY

1) Describe how the LEA will encourage and hold schools accountable for annually measuring the English proficiency of limited-English proficient students and for participating in the state-administered testing program.

- Coordination with the LEA Student Assessment Director
- Communication of assessment and accountability requirements to schools

2) Describe how the LEA will hold schools accountable for meeting proficiency.

- Monitoring and evaluating school engagement with continuous improvement plan

E. PARENT INVOLVEMENT

1) Describe how the LEA will promote parental notification and parental and community participation in programs for limited-English proficient students.

- Eight requirements for parent notification regarding program placement

Separate notification to parents regarding failure of the LEA or school to meet proficiency within the specified time limit

F. TITLE III SUPPLEMENTAL SERVICES

This section should be completed if the LEA receives Title III supplemental funds.

1) Describe how the LEA uses Title III funds to supplement the core ESL program.

2) Describe the method the LEA uses to initiate contact with non-public school officials to engage in timely and meaningful consultation regarding services available to ELs in non-public schools that are located within the geographic boundaries of the LEA.

- How ELs are identified
- How needs of ELs are identified
- How, when, where, and what services will be provided
- How the services will be assessed
- The amount of funds/services available

HENRY COUNTY COMPREHENSIVE ENGLISH LEARNER DISTRICT PLAN

Section A: Introduction and Educational Theory and Goals

EQUAL EDUCATION OPPORTUNITY AND NON-DISCRIMINATION STATEMENT

It is the policy of the Alabama State Department of Education and the Henry County School System that no student will be excluded from participating in, be denied the benefit of, or be subjected to discrimination in any program or activity on the basis of sex, race, color, creed, religion, belief, national origin, ethnic group, or disability.

A student shall not be admitted to, or excluded from, any federally assisted education program on the basis of a surname of language-minority status. [ESSA]

INTRODUCTION

The Henry County School System is committed to providing all students equal opportunity to benefit from educational programs and services. The System is committed to supporting evidence-based research and effective appropriate programs, practices, training and accountability so that all students can become proficient in English and can achieve the state's academic content and student academic achievement standards.

The Henry County School System has the responsibility for implementing Title III, Language Instruction for Limited English Proficient and Immigrant Students, of ESSA. The System is responsible for enforcing Title VI of the Civil Rights Act of 1964, which prohibits discrimination in programs and activities that receive federal financial assistance. The Henry County School System does not discriminate on the basis of race, color, or national origin.

EDUCATIONAL THEORY AND GOALS (SDE PPM#10)

Language is a means of conveying knowledge. Language may be written, spoken, or acted out. Whatever way it is communicated, it is usually acquired with ease and naturalness. Language is necessary for human interaction and is a fundamental part of academic success.

It is the intent of the Henry County School System to provide every student identified as English Learners (EL) or whose primary home language is something other than English appropriate services to enhance his/her ability to learn English as a second language. All EL students will be given the same fair and appropriate education as all other students.

The goal of alternative instruction shall not be to replace or to negate the students' primary home language. Rather, the program shall strive to enable the EL students to become competent in listening, speaking, reading, and writing in the English language. This instruction shall emphasize the acquisition and mastery of English, to enable EL students to participate fully in the benefits of public education. It is the goal of the Henry County School System to ensure that all identified EL students meet or exceed state standards.

Definition

– The term 'English Learner', when used with respect to an individual, means an individual – who is aged three through 21

who is enrolled or preparing to enroll in an elementary school or secondary school;

(i) who was not born in the United States or whose native language is a language other than English;

(ii)(I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and

(II) who comes from an environment where a language other than English has had a significant impact on the individual's level of English language proficiency; or

(iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and

(D) whose difficulty is speaking, reading, writing, or understanding the English language may be sufficient to deny the individual –

the ability to meet the State's proficient level of achievement on State assessments;

(ii) the ability to successfully achieve in classrooms where the language of instruction is English; or

the opportunity to participate fully in society.”

English Learner students will be included in the EL subgroup for the purpose of accountability until they have scored at the “proficient level” (4.8-6.0 Composite Score) on the ACCESS state English language proficiency test.

When students have achieved proficiency on the standards and have tested proficient on the English language proficiency test they will be classified as “Former English Learner (FEL)”.

Students who re-enter the program based on poor academic performance are required to receive EL services. Any student who has re-entered will not be classified as “FEL” until they have again scored proficient (4.8) on the state English language proficiency test.

The EL definition includes students with a range of educational needs with respect to learning English as a second language. Examples include the following types of students:

- **Children of recent immigrants who speak no English and who have had no formal training in written language.**
- **Children of highly educated immigrants who have had formal training in English during formal schooling.**
- **United States-born children whose primary language is not English and who have had limited formal education through English language.**

Section B: Identification and Placement Procedures (SDE PPM#4, #7, #12)

1) Procedures for implementing the EL Advisory Committee

The Henry County School District has established an EL Advisory Committee for the purpose of identifying program needs, assessment, evaluation, and for developing the Comprehensive EL Plan. This committee includes central office administrators, assessment specialists, school administrators, school counselors, and EL staff. The committee may also include parents and community representatives who work with these students and their families in other settings. The Henry County School District welcomes the valuable input from those whose support and efforts are important to the success of the English language instruction educational program.

The LEA EL Advisory Committee shall make recommendations to the LEA regarding its EL program. Some examples of committee responsibilities would be to make recommendations regarding:

- The English language development program.
- High-quality professional development for staff.
- Parental involvement programs to further student success.
- Budgeting of state, local, and federal funds.
- The English language program evaluation.

2) Methods for identifying, assessing, and placement:

Home Language Survey

English Learners (ELs) must be identified at the point of enrollment. A consistent enrollment procedure (**Appendix K**) for language-minority students, which includes the use of a Home Language Survey (HLS), facilitates their entry into the new school environment. A language-minority student is one whose home language is other than English. It is vital to have trained school personnel who are dedicated to meeting the needs of students from different cultures with different levels of English proficiency.

A Home Language Survey (Appendix A) must be completed for each student registering for enrollment in an Alabama public school. It may be helpful to conduct an interview with the student and/or parents during the enrollment process. Information from the interview may be helpful to the EL's committee when considering appropriate placement for the student. TransACT documents and/or the assistance of a translator may be required to complete the survey. The completed survey

becomes part of the student's permanent record and should be available for future reference. The Home Language Survey must contain, at a minimum, the following questions:

1. Is a language other than English spoken at home?

2. Is your child's first language a language other than English?

When all responses on the HLS indicate that English is the only language used by the student and by individuals in the home, the student is considered an English-only speaker. Procedures established by the school system for placement in the general student population should be followed.

Any student whose registration or HLS indicates a language other than English on any of the survey questions is a language-minority student. If any response on the HLS indicates the use of a language other than English by the student or an individual in the home, then further assessment must be conducted to determine the student's English-language proficiency level. However, the presence of a language other than English does not automatically signify that the student is not a competent and proficient speaker of English.

Enrollment Policy

All language-minority students must be allowed to attend school, regardless of their ability to produce a birth certificate, social security number, or immigration documentation. Children may not be excluded from school because they do not have a social security number (*Plyler v. Doe*). Application forms to obtain social security numbers may be distributed, but the option of completing the forms must be left to the parents. The school should use procedures described in *Alabama Administrative Code* (AAC) to create a student number.

If parents do not have student immunization records available, the dates of immunization may be obtained by calling the previous school that the child attended. The LEA may need to contact the former school system. If necessary, students can begin the immunization series at the local public health department. If appropriate immunization documentation cannot be obtained within a reasonable period of time, the student's case should be handled in accordance with approved state and local board of education procedures.

The LEA should work collaboratively with community and area agencies to facilitate the school enrollment process. These efforts should be documented for future reference as needed.

Initial Language Proficiency Assessment and Program Placement (SDE PPM#11)
Initial assessment of English language proficiency must be conducted to determine the level of English proficiency and to facilitate appropriate instructional and program placement decisions. Language-minority students identified through the HLS during registration at the beginning of the school year must be assessed for English-language proficiency within thirty (30) days of enrollment. Language-minority students who register after the beginning of the school year must be assessed within ten (10) days of enrollment. The LEA will record the registration date as "original entry date" in Power School or "date first enrolled" when completing the demographics page of the ACCESS for ELs English proficiency test. Use Appendix C to notify parents of placement.

The SDE has adopted the *World-Class Instructional Design and Assessment (WIDA)-ACCESS Placement Test (W-APT)* and the *Online Screener* to help determine eligibility for placement in the LEA's English language development program. The *W-APT* and *Online Screener* assesses English language proficiency in all four domains

of language development—listening, speaking, reading, and writing—as well as comprehension to ensure that students' language needs are properly identified and addressed through the LEA's educational program.

The *W-APT* and *Online Screener* yields an overall composite score based on the language domains tested. The following guidelines must be adhered to in determining eligibility for placement in the English language instruction educational program:

1. Any student scoring an overall composite score of less than 5.0 on the *WIDA Online Screener* **may** be identified as limited-English proficient and **may** require placement in an English language instruction educational program. Further assessment of the student's English language proficiency is needed to determine placement.
2. Concerning kindergarten placement, a *W-APT* score of 25 or above (out of 30) is considered proficient. The student **may** not need EL services, but their academic progress **may be monitored in case rescreening is needed** in first grade to determine reading and writing proficiency.

The *W-APT/Online Screener* should be considered as only one piece of evidence in the decision-making process regarding placement. Teacher judgment, other assessments, and extenuating circumstances, such as the student's age and amount and quality of previous schooling, should be factored into the decision. An up-to-date Appendix M will be on file at each school and copy sent to the EL Coordinator. Parents may waive Title III Supplemental Services by completing Appendix B.

However, they cannot waive the core EL instructional program.

English Learner Committee (Appendix I) (SDE PPM#4)

The English Learner (EL) Committee is a school team responsible for guiding and monitoring the placement, services, and assessment of students who are ELs. The EL Committee may be comprised of content-area or general classroom teachers of ELs, assessment specialists, school administrators, school counselors, EL staff, and other members as appropriate (e.g., parents, central office administrators, and school psychologists). Although there is nothing to prohibit members from the Student Advisory Teams (SAT) participating on EL Committees, these committees serve very different purposes.

Individual English Language Plan (Appendices J and J(1), (2), or (3))

It is recommended that each student designated as EL have an Individual English Language Plan (I-ELP) which should be updated annually until the student achieves Former EL (FEL) status. The EL Committee should use the following guidelines in implementing the

I-ELP:

1. Ensure full consideration of each student's language background before placement in an English language instruction educational program.
2. Ensure implementation of systematic procedures and safeguards related to appropriateness of identification, placement, assessment, instructional and support programs, and program exit.
3. Review student's progress in language acquisition and academic achievement annually.

4. Convene as needed to discuss changes or adjustments in the ELs instructional services.
5. Identify accommodations needed on state assessments. Additional classroom strategies and accommodations should be identified as appropriate.
6. Communicate in a timely manner the student's I-ELP with faculty and staff who interact with and provide instruction for the child.
7. Ensure the I-ELP describes how the school will communicate with the student's parents in their native language.
8. **Determine and record the date of placement into the EL program on ACCESS for ELLs® Demographics page so that "Length of time in EL Program" is established.**
9. **Please note that the distinction between "date first enrolled" (which is the date of registration) and date to establish "length of time in EL Program" (which is the date a student is first determined to be EL) are two different dates.**

Roles of Student Advisory Team (SAT) and EL Committees

1. **The SAT (Student Advisory Team) process plays a central role in implementation of Response to Instruction (RtI). The purpose of RtI is to combine core instruction, assessment and interventions within a multi-tiered system in order to increase student achievement and to reduce behavior problems. The role of the SAT is to help guide general education intervention services for all students who are at risk of failure academically or behaviorally. (At-Risk definition: core grades below C, low required state assessment scores, chronic behavior referrals, etc.) Although it is a required step before special education testing, it is not used only for pre-special education testing purposes. English Learners may be referred to the SAT only after differentiated instructional strategies have been provided for them for a reasonable amount of time in Tier I and there is data showing that this instruction has been unsuccessful.**

ELs cannot be referred to the SAT if language is the barrier to achievement. SAT committees may not have the specialized training needed to write appropriate strategies or accommodations for students whose primary language is other than English.

2. **If an EL student is being discussed for possible special education issues and language is clearly not the issue, then SAT is the appropriate vehicle, provided EL staff member(s) are part of the team. Once language has been eliminated as the barrier to achievement, ELs students must be served in the same way as all other students.**
3. **The EL and SAT committees are separate entities but may include some of the same members. In smaller school districts, there are a limited number of personnel available for these important roles. The issue is not the duplication of personnel on the committees; it is the purpose of the committees. Appropriate personnel to serve on the EL Committee include content-area or general classroom teachers of ELs, assessment specialists, school administrators, school counselors, and EL staff.**

3) Procedures for exiting students from the EL Program and monitoring progress: (SDE PPM#15)

ENGLISH AS SECOND LANGUAGE PROGRAM EXIT REQUIREMENTS
ELs will be included in the EL subgroup for the purpose of accountability until they score 4.8 (Composite Score) on ACCESS 2.0 English language proficiency test.

All EL students, whether they receive or waive services, must be tested annually on ACCESS for ELs 2.0 state English proficiency test.

Classification of ELs and Exiting Procedures

When students have tested proficient (Level 4.8 – 6.0 Composite Score) on ACCESS for ELs 2.0, state English Language Proficiency Test, they will be classified as “Former EL” (FEL) Monitoring Year 1.

Once students are classified as FEL and are on monitoring status, they no longer take ACCESS for ELs

2.0 although they are still counted in the EL subgroup for proficiency. If FEL Monitoring Year 1 students continue to perform at grade level for one academic year, they will be classified as FEL Monitoring Year 2 the following year and continue on through Year 3 and Year 4. If FEL Monitoring Year 4 students perform at grade level for another consecutive academic year, they will then be classified as FEL and are no longer on monitoring status. Thereafter, students are classified as FEL and are no longer counted in the EL subgroup.

Students who perform poorly in their academic courses may be considered for re-entry into the EL program and receive EL services. To re-enter the program they must go through the same procedure as a new student. Any students who have re-entered the program will not be classified as “Former EL” Monitoring Year 1, 2, 3, or 4” until they have again scored Level 5 (4.8 Composite Score) on ACCESS for ELs 2.0, state English language proficiency test. Students who re-enter the EL program will go through the exiting steps described below.

Steps in Exiting:

1. All students who score 4.8 on the ACCESS will exit the program. This shall be done in the fall of the next school year upon receipt of score reports for ACCESS for ELs 2.0.
2. The EL Program Exit Form (**Appendix D**) will be completed by the English Learner Committee (ELC) and filed in the student’s EL folder. A copy will be given to parents.

Coinciding with the issuance of report cards at nine-week intervals, ELC shall monitor the progress of the student for a period of two years.

4. If the student is not academically successful, or does not pass course work without modification, the student can be reclassified as EL by going through the same screening process as a new student.
5. EL students are considered on an individual basis and assessments will be administered as indicated.

MONITORING ELs WHO HAVE EXITED THE ENGLISH AS A SECOND LANGUAGE PROGRAM

Students who are exited from ESL services are placed on monitoring status for four academic years. During the monitoring time, the EL

paraprofessional and the classroom teacher(s) communicate regularly, (no less than once each nine weeks during the first year and at least once each semester during the second year) to ensure that the exited student is functioning in the mainstream without EL support. Students are classified as Former English Learner Monitoring Year 1 (FEL Monitoring Year 1) during their first year of monitoring, Former English Learner Monitoring Year 2 (FEL Monitoring Year 2) during their second year of monitoring, and continuing through Year 3 and Year 4. Upon successful completion of four years of monitoring, ELs are classified Former English Learner (FEL) and no longer included in the EL subgroup for accountability purposes. If the student is not academically successful, or does not "pass" course work without modification, the student can be reclassified as EL by going through the same screening process as a new student.

Section C: Programs and Instruction

1) Programs and activities that will be developed, implemented, and administered to ensure ELs acquire academic language as part of the core EL program: (SDE PPM#1, #13)

EL PROGRAM DESCRIPTION

Alabama has a standards-based curriculum emphasizing academic and social language proficiency. The EL coursework is based upon WIDA Consortium English Language Proficiency (ELP) standards (Appendix R). Classroom teachers integrate these EL standards with Alabama State Content Standards and College and Career Ready Standards to enable ELs to both communicate in English and demonstrate their academic, social, and cultural proficiency. Instructional approaches, both in EL and general education classes, ensure that the needs of Alabama's ELs are accommodated. To the extent practicable, it is appropriate to use the EL's home language as a means of facilitating instruction and providing parents with school related information.

In Henry County the core instructional program for EL students is the English as a Second Language program. In this model the regular classroom teacher provides instruction that simultaneously introduces both language and content, using specialized techniques to accommodate (see Appendices J – J(3)) ELs' linguistic needs. Instruction focuses on the teaching of academic content rather than the English language itself, even though the acquisition of English is one of the instructional goals. Professional development will be provided to prepare personnel to implement the program.

PROGRAM CURRICULUM

The Henry County School System provides a program for English Learners (EL) that includes objectives in the English language skills of comprehension, speaking, reading, and writing, and the cultural concepts students need to succeed in regular classrooms. Curricula and instructional materials used in the EL program are aligned with the Alabama Courses of Study and are based on evidence-based research demonstrating the

effectiveness of the programs in increasing English proficiency and student academic achievement in the core academic subjects.

EL PROGRAM METHODOLOGIES

Quality EL programs require the teacher to use a variety of approaches in organizing the classroom, designing a curriculum, and presenting lessons. There are several evidence-based elements underlying all good language instruction:

- Versatility and flexibility
- Interactive lessons with hands-on activities and cooperative learning
- Encouragement and support of the mainstream or regular curriculum
- Opportunities for all students to feel successful by providing appropriate modifications and accommodations for the needs of students' different levels of ability
- Integration of language skills, thinking skills, and content knowledge

Teachers usually need more time to prepare a separate lesson for the EL students and/or to work with them regularly on an individual basis. The following evidence-based methodologies are promoted as good teaching strategies for all students:

- Total Physical Response (TPR)
- Cooperative Learning
- Language Experience
- Dialogue Journals
- Learning Centers

All classroom teachers should:

- Announce the lesson's objectives and activities.
- Write legibly and grammatically correct.
- Develop and maintain classroom routines.
- List and review instructions step by step.
- Present frequent summations of the main points of the lesson.
- Use visual reviews with lists, charts, and other graphic organizers.
- Have students provide oral summaries.
- Present information in multiple and varied ways.

2) How the EL program will ensure that ELs develop English proficiency: (SDE PPM#2, #3, #5)

Title III requires the state's student assessment system include an annual, valid, and reliable assessment of English proficiency. The state and each LEA are required, at a minimum, to demonstrate: (1) annual increases in the number or percentage of children making progress in learning English and (2) annual increases in the number or percentage of children attaining English proficiency by the end of each school year.

Based on the findings of the CIP process in each school, the Henry County School System will use local funds, State EL funds, and Title I and III funds to provide

high-quality language instruction educational programs that are based on evidence-based research demonstrating effectiveness in increasing English proficiency and student academic achievement in the core academic subjects. This research involves the application of rigorous, systematic, and objective procedures to obtain reliable and valid knowledge relevant to educational activities and programs.

The LEA provides support to schools in data analysis and development of the ACIP. The LEA also provides professional development opportunities and encourages participation in these opportunities.

The needs of our school system's English Learners are varied. In response, our staff utilizes a variety of instructional programs which allow for the utilization of a variety of instructional strategies and approaches. Progress will be monitored using the SDE required assessments (ACAP, ACT Plus Writing, ACT WorkKeys, ACCESS, AAA), and local assessments.

Alabama Courses of Study and World-Class Instructional Design and Assessment English Language Proficiency (WIDA ELP) Standards (Appendix R)

ELs are a diverse group of students whose personal, cultural, and educational backgrounds differ significantly, and thus require instruction that meets their particular needs. Like all students in Alabama, ELs must be provided with access to the Alabama courses of study and district curriculum but require different instructional pathways to master those standards.

ELs require instruction that makes content comprehensible, which accelerates acquisition of academic language proficiency and literacy. Appropriate instructional support to increase academic English and achievement should include an adequate amount of pre-activities and modeling, access to reading material in their native language for classroom and homework assignments, availability of bilingual books (both fiction and non-fiction), meaningful hands-on activities that contextualize abstract concepts, and use of their native language in writing and speaking activities (even if the teacher does not know this language). "Any modification of instruction that depends on supports to bolster the students' access to meaning" (Gottlieb, 2006) is considered a classroom accommodation. As the ELs attain fluency in English, fewer variations or accommodations in classroom activities will be necessary.

English Learners must simultaneously learn English and content. The WIDA EL Standards facilitate the design of language development objectives that support, guide, and develop content knowledge and skills at the appropriate level of English proficiency. Educators must go beyond teaching ELs survival English by developing their academic English through the context of all content areas.

Students who are acquiring a new language undergo five stages of language development: Entering, Beginning, Developing, Transitioning, and Bridging until they attain English proficiency. (See the WIDA Consortium's description of the Performance Definitions.)

By implementing the WIDA EL standards in the classroom, teachers are able to provide ELs with meaningful access to local curriculum as they progress through the stages of language acquisition.

The WIDA ELP standards and other resources can be found at <http://www.wida.us/standards/index.aspx>.

WIDA CONSORTIUM PERFORMANCE DEFINITIONS	
WIDA LANGUAGE PROFICIENCY LEVELS AND PERFORMANCE DEFINITIONS	
At the given level of English language proficiency, English language learners will process, understand, produce, or use:	
5- Bridging	<ul style="list-style-type: none"> ● The technical language of the content areas. ● A variety of sentence lengths of varying linguistic complexity in extended oral or written discourse, including stories, essays, or reports. <ul style="list-style-type: none"> · Oral or written language approaching comparability to that of English proficient peers when presented with grade level material.
4- Expanding	<ul style="list-style-type: none"> ● Specific and some technical language of the content areas. ● A variety of sentence lengths of varying linguistic complexity in oral discourse or multiple, related paragraphs. <ul style="list-style-type: none"> · Oral or written language with minimal phonological, syntactic, or semantic errors that do not impede the overall meaning of the communication when presented with oral or written connected discourse with occasional visual and graphic support.
3- Developing	<ul style="list-style-type: none"> ● General and some specific language of the content areas. ● Expanded sentences in oral interaction or written paragraphs. <ul style="list-style-type: none"> · Oral or written language with phonological, syntactic, or semantic errors that may impede the communication but retain much of its meaning when presented with oral or written, narrative or expository descriptions with occasional visual and graphic support.
2- Beginning	<ul style="list-style-type: none"> ● General language related to the content areas. ● Phrases or short sentences. <ul style="list-style-type: none"> · Oral or written language with phonological, syntactic, or semantic errors that often impede the meaning of the communication when presented with one to multiple-step commands, directions, questions, or a series of statements with visual and graphic support.
1- Entering	<ul style="list-style-type: none"> ● Pictorial or graphic representation of the language of the content areas. ● Words, phrases, or chunks of language when presented with one-step commands, directions, WH-questions, or statements with visual and graphic support.
3) Specific components of the LEA's EL program: (SDE PPM #15)	

EL MATERIALS AND RESOURCES (Appendix N on file at each school.)

To provide effective instruction that: (1) leads to the timely acquisition of proficiency in English and (2) provides teaching and learning opportunities so that each student can become proficient in the state's academic content and student academic achievement standards expected for all students, evidence-based EL materials are used that stress the development of communication, comprehension, speaking, reading and writing skills.

EL personnel and regular instructional staff utilize evidence-based computer software, videos and numerous printed materials. Some of the evidence-based resources and materials utilized in the EL program include:

- Spanish and English Student Dictionary
- Picture Dictionary
- Langenscheidt Pocket Dictionary

- **Reading Milestone Levels 1, 2, and 3**
- **Rosetta Stone**
- **Electronic Resources**
- **Flash cards**
- **ELLevations**

Local churches provide EL activities for families.

Other evidence-based materials and resources will be added as funds become available to enhance the EL program and improve student academic development.

4) Grading and retention policy and procedures:

EL GRADING GUIDELINES

Grading of ELs should be based on students' level of English Proficiency using the WIDA Language Proficiency Levels from the ACCESS 2.0. The teacher ensures this through the continual use of accommodations (see **Appendices J – J(3)**) and assessments according to the students' I-ELP.

The following guidelines must be followed to assure that EL students are not being discriminated against due to the language barrier:

For students in language proficiency levels 1, 2, and 3, teachers may grade on improvement as well as knowledge of content.

A grade of "F" cannot be assigned to an EL student without full documentation of modifications having been made to assure the student's full access to the content.

(Appendices J – J(3))

Strict adherence to a "number" grading system is often inappropriate for EL students. To ensure that EL students have a reasonable chance of succeeding in school, the following guidelines will apply:

1. For each EL student, an EL Instruction Plan shall be developed. The plan will consist of Appendix J plus the appropriate Appendix J(1), (2), or (3).
2. Satisfactory or unsatisfactory grades relevant to the learning activities in that plan shall be assigned.

GRADING SUGGESTIONS

Traditional procedures for assigning grades to students are sometimes problematic for EL students. The same methods and criteria applied to the English-speaking age and/or grade peers cannot be used to assess students who cannot comprehend English as the language of instruction. Teachers should be encouraged to maintain high expectations for student learning. Teachers should modify and adapt lessons and assignments, so students can demonstrate their knowledge and skills.

A "participation" grade may be assigned until the student can sufficiently demonstrate his/her content knowledge. Because such a grade is subjective, the student, within his/her language capabilities, should be expected to do the following:

- Pay attention in class
- Follow directions
- Have required materials
- Participate in adapted or modified activities

- Complete adapted or modified homework assignments within reasonable expectations
- Demonstrate progress

By way of example, a participation grade, based on cooperation and effort to the degree the student's English language proficiency allows, may be differentiated as follows:

- A or B (or Progressing) to students who demonstrate maximum effort C (or Satisfactory) to students who demonstrate satisfactory effort
- D or F (or Unsatisfactory) to students who demonstrate minimum effort

The student's report card should indicate the grade is for participation. This grading mechanism must be explained to the student's parent(s).

Extreme caution should be taken to ensure a "participation" grade is not substituted or confused for a grade-level content performance or achievement grade in the student's cumulative records.

If a student can demonstrate knowledge and skills in a particular subject, i.e., math, he/she should be assigned an achievement grade. For courses in which the student's limited English proficiency does not prohibit access to instruction, i.e., art, physical education, an achievement grade should be assigned.

ACCOMODATIONS AND GRADING

The regular classroom teacher will make accommodations (see Appendices J – J(3)) to the regular program to meet the needs of the EL student. Accommodations may include, but are not limited to, the following:

- **Oral, rather than written assignments**
- **Oral testing**
- **Extra time to complete assignments**
- **Shortened assignments**
- **Alternative assignments**
- **Tutoring**

Accommodations in grading may also be necessary for EL students. Any of the following options may be recommended by the English Language Instruction Committee:

- **A grade may be assigned followed by explanatory comments.**
- **An S or U may be given instead of a letter or numerical grade.**
- **Grades may be assigned to correlate with goals on the EL Plan**

TESTING ACCOMMODATIONS

The purpose of testing accommodations for an EL student is to enable the student to demonstrate the degree of achievement which he or she possesses. Accommodations can be made to ensure that each EL student receives individual consideration of his or her language proficiency, but an accommodation cannot be provided if it changes the nature, content, or integrity of the test.

When determining appropriate accommodations for an assessment, the ELC (EL Committee) must look at the accommodations regularly being made on the student's classroom tests over time in that particular subject area. Accommodations on state assessments must be accommodations which are a part of the student's instructional program; however, the ELC must work within the framework of the approved accommodations on the EL Accommodations Checklists. The ELC must remember that an accommodation on a state assessment cannot supplant the skill that the test is designed to measure. Accommodations which change the nature, content, or integrity of the test, such as reading of a reading test designed to assess the skill of reading, are not allowed.

RETENTION

Retention of ELs shall not be based solely upon level of English language proficiency (Section I, Part G, Guidelines to Satisfy Legal Requirements of *Lau v. Nichols*). Prior to considering retention of an EL, the following points should be addressed by the EL Committee.

- **What is the student's level of English language proficiency?**
- **Has an Individual English Language Plan (I-ELP) been implemented to document classroom modifications and student progress?**
- **To ensure meaningful participation, are classroom accommodations being made in the areas of:**
 - **Teacher lesson delivery?**
 - **Activities and assignments?**
 - **Homework?**
 - **Formal and informal assessments (e.g., quizzes and tests)?**
- **How much individual English language development instruction is the student receiving during the school day?**
- **Has an alternate grading strategy been implemented (e.g., a portfolio, checklist, teacher observation, or rubric assessment on content and language objectives)?**
- **Has the student's classroom teacher been adequately trained with instruction and assessment strategies specifically designed for students learning English?**
- **Do the reports cards indicate that students were graded according to their I-ELPs?**

5) Specific staffing and other resources to be provided to ELs through the EL program: (SDE PPM #8 and #14)

EL STAFF: Henry County has no certified EL teachers. However, all teachers/paraprofessionals who participate in the English Learner Program are fluent in English, both written and oral. Two highly qualified paraprofessionals (one in Abbeville schools and one in Headland schools) work collaboratively with highly qualified teachers to meet the instructional needs of our EL students.

TRANSLATORS/INTERPRETERS: Those serving in this capacity must be fluent in the language they are translating.

EL MATERIALS AND RESOURCES: (described in number 3 above)

6) Method for collecting and submitting data: (SDE PPM #6)

Collecting and Submitting SDE Required Data

The Henry County School System will collect and submit, in a timely manner, the data required by the SDE Program Compilation Data form. The data will be collected from several sources including: PowerSchool, SDE Assessment Accountability Reports, DIBELS Reports, etc.

The Henry County School System will collect data from school/system personnel serving EL students. Such data may include state assessment results for individual students, performance indicators, report cards, progress reports, and waiver letters. Collected data will be compiled and submitted to the State Department of Education according to requirements.

7) Method for evaluating the effectiveness of the EL program: (SDE PPM #16)

Accountability The Henry County School System's method of evaluating the EL program will include a review and analysis of state assessment results for individual students, schools, and the school system's progress per subgroup, proficiency levels, school ACIP reform strategies, and revisions to school plans. Such a review will determine the need to revise existing action plans.

The purpose of program evaluation is to provide information for decision making at several levels in the implementation of a program. The evaluation of the effectiveness of the program is based on student English language proficiency and proficiency on grade level student academic content standards. Evaluation is the outgrowth of the plan development and implementation and is an ongoing requirement.

A formal evaluation of the EL program will be conducted at the end of each school year, and a copy of the results will be submitted to the Alabama State Department of Education. Assessing evidence-based research methods, materials and approaches on teaching EL students is also an important component of evaluating the program. Distinguishing between learning the English language and attaining English proficiency is crucial. Three types of standards: English language proficiency standards, academic content, and performance standards will be assessed. The annual measurable goals will determine the effectiveness of the program and assist in program improvement. The Henry County School System is held accountable for improving EL English proficiency through public reporting and by state proficiency requirements. Additionally, the EL Program Evaluation and EL Program Compilation Data Form are used to assess the program and make revisions. Parents also play a role in evaluating the program by serving as active participants in offering input into the EL plan for program improvement.

8) Method of identification and referral of ELs to the Special Education Program: (SDE PPM #17)

ELs WITH DISABILITIES AND SPECIAL EDUCATION SERVICES

The education of ELs with disabilities raises several concerns about the legal requirements of LEAs. Among the concerns are identification, eligibility, and service provision for ELs suspected of having a disability. Special education programs and services must be provided in accordance with the *Individuals with Disabilities Education Act of 2004* (P.L. 108-446). All LEAs are required to include a description for communicating with non-English speaking students/parents in their Individual Education Plan (IEP).

All students with disabilities are guaranteed the right to a free, appropriate public education; an IEP with related services, if needed, that meet their specific needs; due process; education in the least restrictive environment; tests that are not culturally discriminatory; and a multidisciplinary assessment. Public Law 108-446 requires that state and local education agencies ensure that the students are assessed in all areas related to the suspected disability. The materials and procedures used to assess a limited-English proficient student must be selected and administered to ensure that they measure the extent to which the student has a disability and needs special education, rather than measuring the student's English language skills. The limited-English proficient student with disabilities has a right to the same individual special education services as other students with disabilities. Note that ELs must be provided with English language acquisition services that are an integral part of their IEP.

Uncertainty often exists regarding the referral of ELs for Special Education Services (SES). ELs are eligible to receive SES on the same basis as all other students. Care should be exercised or used to ensure that limited-English proficiency is not the basis of a referral.

In situations where it is not realistic to test in the native language or mode of communication for an EL, the LEA must consider information that will enable the eligibility team to make a decision as to whether the child has a disability and the effects of the disability on educational needs.

A child may not be determined to be eligible for special education if the determinant factor is the child's lack of instruction in reading, math, or limited-English proficiency. The IEP for an EL with a disability must include all of the components as listed in the *Alabama Administrative Code*. The IEP team shall consider the language needs of the student as those needs relate to the student's IEP. Parent participation is a required part of the special education process and to ensure active participation, accommodations must be made at all meetings and in written communications for the non-English speaking parent.

This may also be necessary for parents of students who are National Origin of Minority whose Primary Home Language is Other Than English. These accommodations will include a translator for oral communication, and written communication must be in the parent's native language.

GIFTED AND TALENTED EDUCATION

The Alabama SDE and the U. S. Department of Education, Office for Civil Rights (OCR) signed a Title VI Resolution Agreement focusing on underrepresented populations in gifted programs in Alabama. In the agreement, the SDE committed to a variety of actions related to screening/referral criteria

and procedures, evaluation processes and eligibility criteria, program oversight, and technical assistance.

Section D: Assessment and Accountability

1) Method for holding schools accountable for annually measuring the English proficiency of ELs and for participating in the state-administered testing program:

English Learners will be assessed on the ACCESS for ELLs 2.0® English language proficiency test until they are proficient in English with a composite score of 4.8 or above.

All ELs must participate in the statewide assessment program for accountability purposes. ELs, during their first academic year of enrollment in U.S. schools, will not be required to participate in the reading subtest of the required state assessments. However, if these students participate, their scores will not be included in accountability determinations for reading. An academic year cannot exceed 12 months or allow more than one exemption from the state reading assessment regardless of the date of enrollment.

For purposes of participation in the assessment program, ELs, during their first academic year of enrollment in U.S. schools, will use the English language proficiency assessment if they do not participate in the reading subtests described above. This English Language Proficiency assessment, *Assessing Comprehension and Communication in English State-to-State for English Language Learners* (ACCESS for ELLs 2.0®), is administered each spring. Students in their first academic year of enrollment in U.S. schools and who take ACCESS 2.0 will be counted as participants toward meeting the 95 percent participation requirement of reading.

English Learners, during their first academic year of enrollment in U.S. schools, must take the appropriate mathematics portion of the required state assessments, with accommodations as necessary, but their scores will not be included in accountability determinations. These students will be counted as participants toward meeting the 95 percent participation.

All ELs, whether they receive or waive supplemental Title III services, must be tested annually on ACCESS for ELLs 2.0® state English proficiency test.

2) Method for holding schools accountable for meeting proficiency in academic achievement and Objectives: (SDE PPM #3)

The Henry County School System will hold schools accountable for meeting proficiency using results from the required state assessments. Meeting proficiency will be determined using results from the ACCESS and the required state assessments. Each school will be held accountable for measuring annually the English proficiency of limited English proficient students and for participation in the state-administered testing program by submitting a school wide plan (ACIP) that includes a needs assessment, reform strategies, professional development activities, parental involvement strategies, and an evaluation of the plan. The Continuous Improvement Plan (CIP) will be monitored and evaluated each year. A copy of the plan will be submitted to central office personnel for approval. Based on the results of the ACCESS 2.0 and other required state assessments, each school will review the scores of students in the subgroup – English as a Second

Language. The results will serve as a needs assessment of specific areas to target. The ACIP committee will report such results to the entire faculty. The ACIP will reflect annual revisions designed to meet the needs of EL students.

Section E: Parent Involvement

1) Methods for promoting parent involvement activities to help improve student achievement:

How Parents Are Involved

Parents and community members who speak a language other than English are invited and encouraged to participate in all school and district programs and activities as English-speaking parents (**See Appendix H**). These activities include but are not limited to PTO, parent conferences, parent workshops and student programs.

Parents of EL students will be notified of Adult Education classes and special classes where they may attend that may benefit them as they adjust to a new culture.

As required by the State Department of Education, the Henry County School System will:

- Annually evaluate the educational programs to identify and eliminate barriers that may exist in preventing parents from participating in school activities.**
 - Provide an interpreter to assist in school registration.**
 - Provide an interpreter for parent/teacher conferences.**
 - Provide notices of school meetings (**Appendix H**) and other activities in the language parents can read.**
 - Provide opportunities for parents to participate in the education of their children. -Include parents of EL students, to the extent possible, on committees.**
- 2) Methods (in a language they can understand) for **notification requirements** for EL students regarding**
- EL identification and placement and**
 - Separate notification for the LEA or school's failure to meet proficiency**

PARENT NOTIFICATION (Appendix C**)**

According to NCLB Title III requirements, districts must, not later than 30 days after the beginning of the school year, provide notification to parent(s) of ELs identified for participation in an English language instruction educational program of:

- 1. The reasons for the identification.**
- 2. The child's level of English proficiency.**
 - a. How such a level was assessed.**

- b. The status of the child's academic achievement.
- 3. The method of instruction used in the program.
- 4. How the program will meet the educational strengths and needs of the child.
- 5. How the program will specifically help their child learn English and meet age-appropriate academic achievement standards for grade promotion and graduation.
- 6. The specific exit requirements for such programs, expected rate of transition from such programs into the regular education classroom, and the expected rate of graduation from secondary school.
- 7. In the case of a child with a disability, how the program meets the objectives of the individualized education program of the child.
- 8. Information pertaining to parental rights that includes written guidance detailing:
 - The right of the parents to have their child immediately removed from supplemental Title III programs upon request. (Appendix B)
 - The options that parents have to decline to enroll their child in such supplemental Title III programs or to choose another program or method of instruction if available. (Appendix B)
 - The various programs and methods of instruction if more than one program or method is offered by the eligible entity.

Separate Notification Regarding Accountability for yearly progress.

In addition to providing the above information, each LEA or school that is using Title I and/or Title III funds to provide a language instruction educational program and that has failed to make yearly progress for any school year, shall separately inform a parent or the parents of a child identified for participation in the program, or children currently enrolled in the program, of such failure not later than 30 days after such failure occurs.(see Appendix Q)

If a child enrolls in school after the beginning of the school year, the LEA must notify parents of the failing school's language instruction educational program within two weeks of the child being placed in such a program. Parent notifications must be communicated in a language and/or manner that the parents can understand.

Acceptable parent notification forms are available in many languages online at TransACT. These parent notification forms, along with general education and NCLB compliance forms can be downloaded at www.transact.com.

Section F: Title III (To be completed if the LEA receives Title III supplemental funds)

1) Use of Title III funds to supplement the core ESL program:

Title III funds are used to supplement the core ESL program in Henry County Schools. The Henry County School System provides program services to all EL students as well as parents and school staff to include translation of Spanish to English. Instructional materials and supplies will be purchased for EL program use.

2) Method the LEA uses to initiate contact with non-public school officials to engage in timely and meaningful consultation regarding services available to ELs in non-public schools that are located within the geographic boundaries of the LEA (if applicable):

The Federal Programs Director contacts in writing annually to each private school located within the geographic boundaries of Henry County Schools. *Intent to Participate Form* is completed. At this time there are no private schools participating in the Henry County School District Title III Federal Education Program.

Section G: Appendix (*Required documents are Home Language Survey, Parent Notification Letters, and Title III Supplemental Services Waiver Letter; the LEA may include any other related documents*)

Appendix A—Home Language Survey

Appendix B—Request for English Language Development Program Withdrawal/Denial of Enrollment

Appendix C—Notification of English Language Development Program Placement and Description of District English Language Development Program

Appendix D—Notification of Eligibility to Exit from Program

Appendix E—EL Procedure

Appendix F—EL Program School Compliance Checklist

Appendix G—EL Program Evaluation and Responsibilities

Appendix H—Notice of Parent Meeting for English Language Learners

Appendix I—EL Committee Form

Appendix J—EL Student Referral and Placement Form (and Classroom Accommodations Form) Appendix K—Procedure for Admitting English Learners

Appendix L— EL Program Action Plan

Appendix M— EL Placement Roster

Appendix N— EL Resources Inventory Form

Appendix O—BOE Approval

Appendix P—Sheltered Instruction Strategy

Appendix Q—Notice of District Progress for yearly progress

Appendix R—EL Core Program/WIDA ELD Standards/WIDA Consortium Performance Definitions
