The Henry County Board of Education has removed all friable asbestos from its facilities; however, there are areas within the school system that contain suspected non-friable asbestos materials. Such areas may include floor tile, attic/roofing material, and thermal insulation beneath crawl spaces and in attics. For more information contact the school office for the school's Asbestos Management Plan.

**Attendance- Refer to Henry County Code of Conduct for complete policy.**

**Backpacks**

Alabama Backpack Act (2017-19) The Backpack Act provides awareness of the dangers of heavy backpacks. Go to [www.bacsupport.com](http://www.bacsupport.com) for more information. Research shows that children carrying more than 10% of their body weight is damaging to their spinal and postural health. Just because you can't see the internal damage, doesn't mean it isn't happening! Have you ever wondered how this is affecting my child? 1.WHO, NIH and many other prominent health research programs across the globe recently released their findings in the Global Burden of Disease 2010 Project, which listed musculoskeletal issues (meaning back pain) as the second leading cause of disability worldwide! 2.The "Spain" study, which was released April 2012, was listed in the Archives of Childhood Diseases. This study showed that many teens carry school backpacks that exceed 10percent to 15 percent of their body weight, which puts them at risk for back pain and related disorders (scoliosis). 3.The 2010 MRI study was the first of its kind and was done by an Orthopedist. It showed damage to the spine, mainly in scoliosis, herniated discs and decreased vertebral disc height, significantly advanced as backpack weight was incrementally increased. 4.Research

and studies dating back to the early 1990's show significant damaging changes in posture, blood flow, head carriage and gait in addition to increased pain. 5. For every 1 inch the head is carried in front of the spine (anterior head carriage), the head weighs 10 more pounds. Studies have shown significant changes in anterior head carriage with heavy backpacks. This not only can cause stress/pain in the neck and shoulders, but because of the altered overall posture, the whole spine, joints, tendons and muscles can be affected. 6. School age children's spines are still growing and substantial changes at this point in their growth could cause irreparable damage. 7. If our children are focusing on pain, they are not able to focus on their school work and learning. 8. Any change in the environment of the nervous system, whether through tightening of the muscles, vascular changes or spinal deviations from the norm, can cause short and long term effects for the health of an individual. Most of these findings are PREVENTABLE, if caught early!! So, what can you do to help? Watch the video at [www.bacsupport.com](http://www.bacsupport.com) Make sure your child's backpack is worn correctly and weighs no more than 10% of their body weight.

Anyone picking up a child must be on the student's check-out form or the school must have written permission before releasing the child. **The school should be notified in writing by the parent/legal guardian of anyone else picking up their child/children in the absence of the parent/legal guardian. The school may request photo identification at the time of check-out.** The school assumes no responsibility for a student after check-out procedures. If a student leaves school without going through the above listed procedures, his/her parents will be notified and disciplinary action consistent with the due process will be taken.

Students enrolled in school may leave our campus to visit another school only when accompanied by the principal or teacher with a signed permission slip from the parent/guardian. An example of this is when Grade 5 visits Headland Middle School in the spring of each year.

## Health

Early in the morning it is often difficult to make a decision about whether or not your child is sick enough to stay home from school. With minor symptoms you often cannot tell whether he/she is going to get better or worse during the course of the day. The main reasons for keeping your child home are fever, vomiting, diarrhea, and/ or widespread rash. \*Children with fever should stay home until there is **no fever (100.4 or higher) for 24 hours (without taking Tylenol, Motrin, Advil, etc.). This is subject to change due to CDC guidelines.** Students must not be in possession of any medication (prescription or over-the-counter-drops, sprays, ointments, etc.) Please understand and inform your child/children that due to state policies regarding the dispensing of medication at school, the school nurse will no longer be able to provide any over-the-counter medicine to students unless it is provided by parent. This includes Tylenol, Tums, and almost every other medical product. The only thing that the nurse can provide is soap, water, and bandages.

## COVID-19

Henry County Plan for COVID-19 information and updates can be found at website [www.henrycountyboe.org](http://www.henrycountyboe.org) Henry County Schools will follow all guidelines from the CDC and ALSDE.

(1) Unless otherwise noted in paragraphs (2) and (3) below, vaccine doses should be administered according to the most recent version of the Recommended Immunization Schedules for Persons Aged 0 Through 18 Years, as published by the Advisory Committee on Immunization Practices. Vaccine doses administered <4 days before the minimum interval or age should be counted as valid. Doses administered >5 days earlier than the minimum interval or age should not be counted as valid doses and should be repeated as age-appropriate.

(1) Except as provided in Chapter 420-6-1-.02 and in the Code of Ala. 1975, §16-30-4, each pupil, prior to entering Alabama school grade kindergarten through twelfth grade shall receive age-appropriate immunizations as below:

Booster doses of tetanus and diphtheria toxoids vaccine (Td) must be given 5-10 years after the preschool booster. However, effective for students entering sixth grade beginning fall of 2010, a booster dose of tetanus and diphtheria toxoids and acellular pertussis vaccine (Tdap) must be given at 11 or 12 years of age. This requirement will escalate by one successive grade each year for the following 6 years to include sixth through twelfth grades, beginning fall of 2016.

(a) Pneumococcal disease using pneumococcal conjugate vaccine.

**420-6-1-.04 Vaccine Shortages.** When the State Health Officer determines that there is a vaccine shortage of one or more vaccines whether statewide or localized, affecting the ability of the health care system to assure that all children have access to age-appropriate immunizations required for school entrance by Alabama Administrative Code, Chapter 420-6-1-.03, the State Health Officer may notify affected health care providers about the supply shortage(s) and authorize such providers to validate a certificate of immunization despite one or more indicated, age-appropriate vaccinations not being administered because of vaccine shortage. Such validation will be accomplished by the provider affixing a department-supplied sticker to the individual child's certificate to indicate a new expiration date, not to exceed one year from the current date or the end of the school term for which the certificate is due, whichever shall be later.

### **Medication: Administration of Medication Introduction**

The Henry County School system recognizes the need for some students to receive medications during the school day. In response to this identified need, the school system has established guidelines to ensure the safe and proper administration of medications during the school day. The goal of the school system regarding the administration of medication during the school day is to assist students in maintaining an optimal state of wellness, thus enhancing the educational experience. A nurse is available to ensure the proper administration of medications during the school day, and to ensure that issues of health do not impact negatively upon students' classroom performance and attendance.

Most medication will and should be given at home. Medications prescribed for three times a day should be given at home; just before leaving school, upon returning home in the afternoon, and at bedtime. Please contact your school's nurse if there are special conditions regarding the administration of medications during the school day.

Please be reminded that the authority to administer medication(s) to your child must come from you as the parent/guardian and the physician, when the medication is prescribed. Please do not allow your child to keep medications or medical devices, such as inhalers, with him/her during the school day, without speaking to the school nurse. Carefully review and adhere to the following guidelines:

1. Medication Forms: Prescribed medication including over the counter medication is administered only upon receipt of a correct, current completed School Medication Prescriber/Parent Authorization Form (PPA). Over the counter medications also require a prescriber's authorization. This form is available from your child's school nurse. Please ensure the PPA matches the pharmacy label. These forms have to be renewed yearly. Also, an updated form is needed when a medication dosage is changed or time to be administered is changed. A discontinue order from the medication prescriber is required to discontinue medications. The school nurse cannot implement changes in a medical order from the parent or guardian. A prescriber order is required.
2. Delivery of Medication: All prescription medication must be in a current, pharmacy-labeled prescription container. All over the counter medication must be in a sealed-unopened, manufacturer-labeled container. The parent/guardian (not the student) should deliver the medication and the PPA to the school nurse.
3. Acceptance of Medication: Both the parent/guardian and the licensed nurse or medication assistant will sign the back of the Medication Administration Record (MAR) to verify the amount received or retrieved. Students must not deliver or carry any type of medication to and from school except those that have been authorized for self-administration/self-carry by the school nurse.
4. Storage of Medication: All medication must be stored in the school health office according to ALSDE/ABN guidelines. Exceptions to this rule are medications prescribed to prevent or treat medical emergencies that have been authorized by the school nurse.
5. Emergency Medication: A student may carry his/her emergency medication on his/her person for self-administration with proper authorization on the School Medication Prescriber/Parent Authorization Form (PPA) and after demonstration of proper administration to the school nurse.
6. Expired Medication or Needed Inventory of Medication: The parent/guardian will be notified when medications expire and when medication inventory is needed. Expired medication must be picked up within two weeks of notification. If not picked up within this time frame, the medication will be destroyed in accordance with guidelines. It is the parent/guardian's responsibility to bring additional medication to school. If medication is not brought in a timely manner, the prescriber will be notified.
7. First Dose of Medication: The first dose of any new medication or change in dosage (increase or decrease) of a current medication should be given at home with the exception of emergency medications (ex epiPen).
8. Suggested Recommended Medication Administration of Early Morning AM Medications and Antibiotic Medications: It is recommended that AM medications be administered at home before

school. Also, when a medication is prescribed for three times a day it should be given at home; just before leaving for school, upon returning home in the afternoon, and at bedtime (ex antibiotics).

9. If a medication is administered to a student other than the school nurse or medication assistant, it must be administered by the parent/guardian.
10. End of Each School Year: The parent/guardian must pick up all medications on or before the last day of classes or the medication will be destroyed.

### **Scoliosis Screening**

The Alabama State Department of Education requires school districts to offer and provide scoliosis screening for male and female students in grades 5 through 9 if the child's parent request it to be done. Screening is performed by observing the uncovered spine, viewing the student from the back, side, and front and also from all sides with the student bending forward. If a child receives a positive screening by the school nurse, the child's parent will be provided with a written referral to physician form. The written referral to physician form needs to be completed by your child's physician. The completed form then needs to be returned back to the school nurse. If you would like your child to be screened for scoliosis, please request a screening consent form from your child's school nurse. Only students that have a signed consent form will receive a scoliosis screening. If you need assistance or have questions, please follow up with your child's school nurse.

### **Migrant and Homeless**

Migrant and homeless students who come into the system will be provided the same quality educational opportunities as all other students.

A student shall not be admitted to, or excluded from, and federally assisted education program on the basis of a surname of language-minority status. [No Child Left Behind Act of 2001. Title III- Language Instruction for Limited English Proficient and Immigrant Students, Part C, Section 3302 (f)]

### **Money**

- All money that is sent to school by a parent should be placed in an envelope with the student's name, amount of money, teacher's name, **and the money's intended purpose written clearly on the front of the envelope**. This is especially important in Grades K-3.
- **Separate checks should be written for each sibling.**
- **A \$10 fee will be charged per check that has NSF. After first returned check only cash will be accepted**
- **All Credit Card transactions will be charged a \$2.50 transaction fee.**

### **Parties**

1. Birthday parties are **not** allowed at school. **This includes sending snack time refreshments on his/her birthday.**
2. Since balloons are a distraction in the classroom and a safety concern on the bus, **we will not accept delivery of balloons at school.**

### **Pictures All pictures will be able to be purchased online.**

Individual pictures are taken in the fall. Class and Individual pictures are taken in May.

### **Policy for Providing a Quality Education for all Students in Henry County**

The Henry County School System is committed to providing high quality education for all students. Because of this commitment, this policy is developed for students who use English as a second language, who are immigrants, who are migrants, and/or who are homeless. Each student who enrolls in our schools must complete a Home Language Survey. The parent or student may fill out this survey. If it is determined that the student's language is not English, the English Language Learners (ELL) Coordinator is contacted. The student will be given a Language Assessment to determine his/her understanding/ability to perform in a regular classroom situation. A team made up of regular classroom teacher(s), principal or designee and the ELL Coordinator will discuss assessment results and decide the best plan for the student. All students will be in regular Physical Education classes. At other times students could be given instruction in a resource room or be helped in the regular classroom by another person. All students are monitored and mainstreamed as progress is made. Student(s) will be evaluated on their classroom. ### **HENRY COUNTY GIFTED PROGRAM SERVICES**

Gifted students are those who perform at or who have demonstrated the potential to perform at high levels in academic or creative fields when compared to others of their age, experience, or environment. Students possessing these abilities can be found in all populations, across all economic strata, and in all areas of human endeavor.

Teachers, counselors, administrators, parents or guardians, peers, self, or any other individuals with knowledge of the student's abilities may refer a student. Additionally, all second grade students will be observed as potential gifted referrals using a gifted behavior checklist.

For each student referred, information is gathered in the areas of Aptitude, Characteristics, and Performance. The information is entered on a matrix where points are assigned according to established criteria. The total number of points earned determines if the student qualifies for gifted services.

The gifted acceleration process is in place in Henry County to address gifted acceleration.
